

Child Development

Hi Everyone,

Hope you are all keeping well?

Last weeks menu questions are due today please email them to me.

This week's work is attached, it is a menu so that you can pick what questions you want to answer!! The deadline is Monday 11th May 2020.

Any problems email me on gtheobald@psf.wirral.sch.uk

Take care and stay safe

Mrs T

Take Away Menu! LO2

Choose your work from the menu below:

The Peri-ometer shows the level of difficulty or challenge.
Complete **one** task from **each** section of difficulty.

Discuss five checks carried out on a newborn baby. (Write your answer in a paragraph with examples, remember SPAG .)	Research the five types of reflexes observed when a baby is born. Explain what each one is. (Write your answer in a paragraph with examples, remember SPAG .)	Discuss why a pre-term baby is at increased risk of infection. (Write your answer in a paragraph with examples, remember SPAG .)
Ask your parent(s) to tell you the support they received from their family and close friends in early weeks of parenthood. What difference did this make to them?	What is SIDS?	Outline five ways which a father/partner can support the mother.
Identify the five professionals supporting the pregnant woman.	What are the five primary care needs of a child?	What are the five pre-conception health: factors for consideration
Postnatal - give the definition	Antenatal care - give the definition	Pre-term - give the definition
