The Engineering College Open Evening

We are the leading Engineering College in the Liverpool City Region. We have bespoke workshops, modern facilities, and qualified tutors!

Are you or your family member considering studying an engineering apprenticeship?

At The Engineering College, we offer a range of apprenticeships in different pathways such as pipefitter, electrical, mechanical and many more. All shaped and developed by the demands of industry, led by our local employers.

Based in Birkenhead, on the banks of the Mersey, we are an integral part of the local community, working with over 100 North West companies, including the likes of Balfour Beatty, Cammell Laird and Merseytravel.

We help them develop the most skilled apprentices possible; whilst giving our students a first-class industry led education, that allows them to earn whilst they learn and in most cases promises a qualified engineer role at the conclusion of their studies.

On **Thursday 12th February 4PM-7PM** , We will be hosting an open evening at our facilities in Monks Ferry, where students will have the opportunity to:

- Get a taste of what engineering is all about
- Meet some of our employers and ask any questions
- Have a tour of our unique, world class workshops and classrooms

If you're interested in a career in engineering, please come along, say hello and see what the Engineering College can offer you!

*When you order your ticket, please choose a relevant time slot so we can ensure we can safely accommodate as many visitors as possible.

Address: Monks Ferry, Birkenhead, Wirral, CH41 5LH
